NEW. ORLEANS, November 28.—The coton market tacked buying power to-day, and cil off under moderate offerings, closing at the lowest levels, a net loss of to to points. Cable news was unitavorable, and the alling off in receipts at Texas points led to predictions that the expert movement iso would shrink. A disposition to take profits was in evidence among scaiping longs. Weather news was considered against the market, shiee the rains would check the planting of graine. Buils, however, pointed but that there still was cotton in the fields which would suffer damage.

Some talk of a corner in old style Janiary developed, and that position stood irm early in the day at a gain of 2 points, when other positions were down.

ALBERTA, GOOD ROAD CENTRE.

ALBERTA, VA.. November 28.—The good sales of the bright tobacco here and the marketing of many farm products, brought here for stipment to greater markets are not all of the things that go to make Alberta optimistic. There has come to the beomers and the boosters of the goodly little village a lot of information that did not come through the tobacco market or the bank or the development company. The fact is that the tobacco market and the bank and the industrial development company and the Industrial Section of The Times-Dispatch have done very much to put Alberta on the map of Virginia, and there it is for all time and eternity, but it seems that the good roads that pass right through this goodly village have done more than any other one thing or all of them combined to make the town famous, it may be that the good hotel here has helped some, and the bank and the general hospitality of the people and all the like of that have let the automobile runners feek kindly towards Alberta, but who could ever get to Alberta were it not on the good roads line? That is just where it is, and because it is right there it is getting a great deal of free advertising. But Alberta can stand it. It has its good hotel, lits good schools, its good and ever sociable clitzens, and it is now rejoicing more than ever in its good roads, which strike out free in the centre of the town to all parts of the State and all parts of

PROPOSED RAILWAY LINE.

PROPOSED RAILWAY LINE.

One That May Do Great Things for a Part of West Virginia.

CHARLESTON, W. VA., November 28.—The proposed line of the Charleston, Parkersburg and Western Railroad Company is fifty-six miles long from Charleston to Palestine, W. Va., connecting there with the Little Kanawha River branch of the Baltimore and Ohio Railroad, running from Palestine to Parkersburg, thirty miles. The line chosen for the new road is via Sissonsville, Cicerone and Pocotalico River. It traverses a generally flat country and crosses two grade summits, one at the head of Two-Mile Craek, a tributary of the Great Kanswha River, the other being the divide between the Pocotalico and the Little Kanawha Rivers. The first grade will not exceed 1 per cent and the latter not over 1½ per cent. Few bridges will be necessary, but where they are needed short spans of the through plate girder type will be used. If any tunnels, they will also be short, but open cuts will be employed if possibile everywhere. Bids for construction will be opened about January 1.

**UNEXPECTED HAPPENS IN** 

Bears Hold Full Control for a Time and Proceed to Hammer Values Downward.

[Special to The Times-Dispatch.] CHICAGO, November 28 .- The unex pected happened in the Chicago whea market to-day. The bears held full to hammer values downward in a discouraging manner to holders. A change, couraging manner to holders. A change, and an almost complete reversal of conditions, was seen late, and reactions and gains from the lower levels of 15-8 cents were established. Besides the buying by shorts, there was considerable wheat to change hands on investment account. Prices showed not gains of 7-8 to 1 cent, and the closings were strong and around the best levels. Broomhall, the foreign statistician of the Chicago Board of Trade, stood by his Argentine crop figures by acknowledging that the crop estimate was official, having been made up by the Argentine government. The figures on the crop were 209,000,000 bushels, and the exportable surplus 144,000,000. The cable said that the Argentine government wheat preharvest estimates are generally optimistic, and that accepted opinions at Liverpool are for a surplus not exceeding 110,000,000 bushels to 120,000,000 bushels. Wheat continues to move in a lively fashion, as the receipts at primary markets last week were 13,754,000 bushels, which was 5,700,000 in excess of the corresponding time last year. Receipts at primary markets since July 1 were 283,000,000 bushels for a like period last year. While there was an enormous trade couraging manner to holders. A change,

port.

Oats showed but little change for the day, the December loss being 1-8 cent, while May was up 1-8 cent. The increased offerings of oats from the country and the cash sales were 235,650 bushels, nearly all of which was for the country and the cash sales were 235,650 bushels, nearly all of which was for the country and the cash sales were 235,650 bushels, nearly all of which was

The volume of business in provisions was on a larger scale, and the feature of the day was the selling by longs. On the other hand, shorts were in the lead as buyers. The cash situation was unsatisfactory, as the demand was only moderate.
